EDUCATION

WASHINGTON UNIVERSITY IN ST. LOUIS | St. Louis, MO

May 2029

Bachelor of Science in Mathematics and Computer Science

- GPA: 3.74, Collegiate student-athlete on the Track & Field team.

LOYOLA BLAKEFIELD HIGH SCHOOL | Towson, MD

June 2025

- GPA: 3.85/4.00, Ignatian Honors Scholar, National Honors Society Member, Dr. Ford Loker Medal Awardee.

EXPERIENCE

Tomlin Technology | Westminster, MD

July 2026 – August 2026

Summer Intern

- Diagnosed and repaired customer PCs and laptops, performing hardware and software troubleshooting to resolve client technical issues.
- Jumpstarted a new 3D printing business unit, contributing product design concepts, market research, and monetization strategies to drive new revenue.
- Engineered a dedicated Linux environment to analyze malware-suspected drives without risking host Windows network security.
- Managed company social media accounts (Instagram and Facebook), increasing brand outreach and engagement with local clientele.

Penguin Random House | Westminster, MD

June 2025 – September 2025

Summer Associate

- Aided high-volume warehouse fulfillment by scanning and packing titles, feeding automated sortation, and operating case-sealing equipment to prepare shipments accurately and on time.

Loyola Blakefield Cyber Informatics | Towson, MD

April 2024 – June 2025

Field Operations Lead

- Master of Ceremonies for the East Coast's largest in-person high school cybersecurity competition, the Loyola Blakefield Cyber Challenge (LBC2).
- Spearheaded a regional cyber-safety initiative, delivering dozens of awareness presentations to over 1000 middle and high school students.
- Created 12-15-page seasonal newsletters and directed social media strategy to engage sponsors and a community of 10,200 followers.
- Secured and managed corporate sponsorships and partnerships totalling over \$500,000 to fund LBC2 and club operations.

ACTIVITIES

WashU Track and Field | St. Louis, MO

September 2025 – Present

Social Media Lead

- Control Instagram presence through original Reels and graphic design, peaking 100,000+ views and 5,000+ monthly interactions. Secured collaborations with verified accounts and accounts with 10,000+ followers; top post reached 73,000 views.

Bethlehem Farm | Alderson, WV

May 2026 – June 2026

Summer Servant

- Executed hands-on construction and repair projects across local communities, including porch building, roof shingling, and metal roof installation.
- Provided IT and technical support as part of the Special Operations team, troubleshooting computers, network printers, and site hardware to ensure smooth daily operations.
- Facilitated weekly service programs for cohorts of over 30 high school volunteers, serving as a mentor and site supervisor on home repair and community outreach projects.

CyberPatriot National Defense Competition | Towson, MD

September 2022 – March 2025

Team Leader & Competitor

- Administered and secured Debian, Ubuntu, Mint, and Kali Linux environments, implementing system hardening and network defense protocols to achieve a top 50 national ranking in the largest youth cybersecurity competition on the continent.
